ANIKET ROY

Department of Computer Science and Engineering

+91-7099934616 aniketroy.edu@gmail.com linkedin.com/in/aniket-roy-993a55232/

Education

Delhi Public School, Guwahati **[March 2018]**

Class 10th (Matriculation) – 75.8%

Delhi Public School Guwahati **[March 2021]**

Class 12th (AISSCE) – 86.2%

Tezpur University **[November 2021 – July 2025]**

Bachelor of Technology (B.Tech) in Computer Science and Engineering

CGPA – 6.00

Delhi Technological University **[August 2025 – Ongoing]**

Master of Technology (M.Tech) in Computer Science and Engineering

specialization in Cyber Security and Digital Forensics

CGPA – 7.6

Technical Skills

Languages: Python, C/C++, JavaScript, MATLAB, PHP,

Database Management Systems: MySQL, PostgreSQL, Apache Cassandra,

Technologies/Frameworks:

- **Web development**: ReactJS, ExpressJS, NodeJS, Django, Flask, Astro.js
- **Machine Learning/ Deep Learning**: Scikit-Learn, Tensorflow, PyTorch, OpenCV, NLT

Projects

Domain Cache Poisoning Detection System

Python, DNSSEC, Random Forest, Django

Developed a real-time DNS traffic monitoring system to detect cache poisoning attacks through anomaly-based detection techniques. Created a DNSSEC validation pipeline to ensure the authenticity and integrity of DNS responses. Extracted network traffic features and trained a Random Forest classifier to identify malicious DNS behavior. Constructed a Django dashboard for live attack visualization and automated PDF incident reporting.

Speech Emotion Detection System – Understanding Human Communication

NLP, Speech Processing

Developed an end-to-end speech emotion recognition system using PRAAT-based segmentation, acoustic feature extraction, and preprocessing techniques. Implemented a Random Forest classifier to accurately categorize emotions (Positive, Negative, Neutral), enhancing applications in mental health and human-computer interaction.

Alumni Management System

Alumni Engagement, Data Analytics, and System Automation

Developed a comprehensive alumni network platform for Tezpur University, integrating alumni, students, faculty, and administration through a unified web interface. The system modernizes data management, enables event and job tracking, and supports modules for administrators and users—built using PHP, SQL, and XAMPP—enhancing engagement, automation, and lifelong university connectivity.

Experiences

Indian Institute of Technology, Guwahati (Summer Research Intern) **[June 2024 – July 2024]**

Handover Prediction with Channel Estimation in NOMA Networks

Wireless Communications, Network Optimization

Gained hands-on experience in Non-Orthogonal Multiple Access (NOMA) networks by exploring handover prediction algorithms and modeling network behavior using simulation tools. Strengthened problem-solving and research skills through collaboration on advanced wireless communication projects, contributing to innovations in seamless connectivity and network performance.
